

educating SSA employees about the State welfare Medicare buy-in application process, and/or providing welfare workers who would be assigned to take applications in SSA field offices at certain mutually agreeable, fixed times during the demonstration.

SSA expects to implement the external part of this demonstration in no more than 15 communities. That is, SSA and its State partners would identify three sets of up to five comparable communities in several States. Each set of five comparable communities would be selected to participate in each of the following three models:

1. *Screening*—Publicity would direct Medicare beneficiaries who may be potentially eligible for Medicare Part B buy-in to contact a toll-free telephone number staffed by SSA employees. SSA staff would perform an in-depth Medicare Part B buy-in eligibility screening if at all possible while the caller is on the telephone. Potential eligibles would then be referred to the local welfare office to file applications for benefits, and SSA would track the progress of those applications with the State partner.

2. *Co-location*—In addition to the publicity and screening efforts cited in the preceding model, potential Medicare Part B buy-in eligibles also would be invited to file an application for benefits with a State welfare worker stationed (for at least some fixed part of the week) at the local SSA office.

3. *Application*—In addition to the publicity and screening efforts cited in the preceding two models, potential Medicare Part B buy-in eligibles would be invited to file an application for those benefits, completing the appropriate forms with an SSA employee at the local SSA office.

SSA does not envision all three of these models starting at exactly the same time. Federal information collection clearance procedures, training, logistical details and mutual convenience for both the Federal and State partners will dictate starting dates. SSA expects these models to end within nine months after implementation.

SSA intends to employ an independent contractor to consult on the design of the demonstration and to conduct an evaluation of the net outcomes (e.g., increased applications and enrollments in the buy-in programs) of the demonstrations. The role of the contractor in the design phase of the demonstration will be to advise SSA on how to implement the three models described above. SSA will be responsible for collecting data, and SSA will develop a management information system. The contractor will assist SSA

and the States in specifying key data elements to enhance data comparability across sites. This system may include existing SSA administrative data as well as data collected through the demonstration. Designs that the contractor will consider include both experimental and nonexperimental approaches. An experimental design might involve a random assignment of cases to treatment and control groups, while a nonexperimental design could include the collection of analogous data from comparison sites. Each has important implications for the implementation of the three models and for the development of the management information system. State partners will be expected to cooperate with the contractor at key points of the design and evaluation activities. The contractor will be expected to consult with HCFA on its activities. Both the internal and external components of this demonstration will be designed to avoid duplicating any other Federal efforts.

The evaluation component will include analyses of the relative effectiveness of the three models in terms of increasing Medicare Part B buy-in applications from the eligible population and increasing enrollments in the buy-in programs. The evaluation also will include a comparison of buy-in program applications and enrollments under the SSA interventions versus HCFA publicity efforts. An appropriate design is critical to proper measurement of increases in Medicare Part B buy-in enrollments.

SSA invites the public to comment on its proposed demonstration design. SSA also invites States to express interest in participating in this demonstration. State partners in the demonstration may be asked to implement any or all of the models described above; however, if a State that wishes to participate would prefer participation in less than all three models, those preferences will be honored to the extent possible.

Authority: Division A, Title IV of Public Law 105-277.

Office of the Secretary

[Public Notice No. 2932]

Nigeria; Determination Under Presidential Proclamation

I hereby make the determination provided for in section 6 of Presidential Proclamation No. 6636, of December 10, 1993, that the suspension of entry into the United States as immigrants and nonimmigrants of persons who formulate, implement or benefit from policies that impede Nigeria's transition to democracy is no longer necessary. Restrictions imposed in said proclamation, pursuant to Section 212(f) of the Immigration and Nationality Act of 1952 as amended (8 U.S.C. 1182(f)), shall therefore lapse, and said proclamation shall terminate effective immediately.

This determination will be reported to Congress and published in the **Federal Register**.

Dated: October 26, 1998.

Madeleine K. Albright,

Secretary of State.

BILLING CODE 4710-10-M

DEPARTMENT OF STATE

Office of the Secretary

[Public Notice: 2924]

Extension of the Restriction on the Use of United States Passports for Travel to, in, or Through Libya

On December 11, 1981, pursuant to the authority of 22 U.S.C. 211a and Executive Order 11295 (31 FR 10603), and in accordance with 22 CFR 51.73(a)(3), all United States passports were declared invalid for travel to, in, or through Libya unless specifically validated for such travel. This restriction has been renewed yearly because of the unsettled relations between the United States and the Government of Libya and the possibility of hostile acts against Americans in Libya.

The Government of Libya still maintains a decidedly anti-American stance and continues to emphasize its willingness to direct hostile acts against the United States and its nationals. The American Embassy in Tripoli remains closed, thus preventing the United States from providing routine diplomatic protection or consular assistance to Americans who may travel to Libya.
